BUG TRACKING DOCUMENT

UI BUG LISTS

TEAM MEMBER 1: DIYA REN

NO.	Bug Description	Priority	Status	Estimate Fix Time(hours)
1	Facebook Login blocked by system	High	Fixed	4
2	Facebook login status could not update immediately after login or log out	High	Fixed	5
3	Page keep refreshing after redirecting to "firstLoginPage.php"	High	Fixed	1
4.	The courseplanner.de address will only go to main login page after user status is log out, otherwise it will detect the status as login and them automaticaly redirect to page to firstLoginPage.php	Normal	Fixed	1.5
5.	Right now we are using index.php which only include facebook login button feature as our main file, so that each time you go for courseplanner.de you will only see a login button. We will switch our main file to mainPanel later in order to enable the login button should show up along with the main page rather than a independent button.	Normal	Fixed	0.5
6.	Reminders are displayed on a separate page instead of in a pop-up on mainPanel	High	Fixed	2

TEAM MEMBER 2:MENGXI(LUKE) ZHANG

NO.	Bug Description	Priority	Status	Estimate Fix Time(hours)
1	Ajax function of JQuery library passing a string of json object instead of json object itself from PHP file to Js file by default	High	Fixed	1.5
2	Js executes functions in parallel instead of in sequence, calling ajax functions to pull down data is executed at the same time as calling function to display the data on UI when the two functions are put in sequence inside a mother function	Normal	Fixed	1
3	Adding more than one entry of information of a tile to database makes selecting the json object of the tile fail	High	Fixed	1
4	Adding rows after removing a tile causes an exception in google chrome console, but does not affect performance	Exception	Not Fixed	0.5
5	Flash data created by js, which is an array of array of json objects had an off by one bug	High	Fixed	1
6	Could not run XAMPP local database server	Normal	Fixed	1
7	When including sidebar.php files, the sidar hides the content of the original page; the open/close buttons do not work	Normal	Fixed	1.5

DATABASE BUG LIST

TEAM MEMBER 3: ANDREW DOMBOWSKY
